

Discover South Sefton College

At South Sefton College, we want to inspire you to make the most of opportunities to progress in your chosen career. Our dedicated team of professionals will offer expert guidance and support with applications to further and higher education, higher apprenticeships or employment. As a specialist sixth form college, we are unique in providing an environment in which you can work and socialise with other 16-19 year-olds to develop academically and personally in preparation to make the most of the opportunities ahead.

Welcome tours and talks

are available every week throughout the year for individuals and groups. Call us on 0151 288 6300 or book a personalised tour with a member of our team via the website.

Applications Clinics

are available to assist pupils with their applications to college. These sessions may be arranged on a one-to-one or group basis at your request, in school or on our campus.

Bespoke Tasters

are available in all subjects. Look at the following examples which are aimed at pupils from Years 9 – 11 and are available to **any** young person interested in studying at South Sefton College.

Examples of our tasters

Art

Join our A level Art students in a sculpture and abstract drawing workshop.

Years 9-11, July

Business leaders of the Future

Join forces with a team to create a business manufacturing 'clackers' to strict quality control standards. Use your negotiating skills to sell the most desirable clackers to dealers. The team who earns the most profit wins!

Years 9 and 10, June-July

Biology

Perform a dissection on a sheep's heart under expert guidance, to delve deeper into the study of the most important bodily organ.

Years 9 and 10, June-July

Chemistry in Action

Want to experience Chemistry in action? Find out more about Forensics? Our bespoke one-hour practical sessions cover GCSE topics, A-level Chemistry and careers in science and medicine.

We can come to your school or you can spend a whole morning or afternoon in college using forensic science to solve a murder mystery.

Years 9, 10 and 11, October-June

Computing - Programming with Python

Develop programming skills and knowledge in this introduction to programming with python which focuses on making and running a number of programmes to create text-based games.

Year 10, June-July

Computing Introduction to Number Systems (Binary)

Join us each Friday morning from 9:00 - 10:00 from mid-Feb onwards.

Criminal Justice

Join our **Psychology, Sociology and Law** teams to track a Defendant through the Criminal Justice system, beginning with the commission of an offence all the way through to the outcome of the case. You will investigate the factors surrounding both the defendant and the offence that may influence the outcome of the case.

Years 10 - 11, January - June

Drama and Performing Arts

A practical taste of Drama and Performing Arts in scenes from the productions taught at GCSE
Years 9-11, July

English

We can offer lively, engaging and challenging bespoke workshops in any aspect of English; from poetry to spoken language including perhaps the texts being taken at GCSE.

Years 9, 10, 11, September - July

Health & Social Care and Applied Science

Get hands-on experience with a practical session in which you use the equipment and procedures for monitoring your vital signs. Meet our students and find out how Science and Health & Social Care combine to open up opportunities to a wide range of careers.

Years 9 and 10, June-July

History: 'Understanding the past?'

In this one-hour workshop, students will use historical sources to make judgements related to the D-Day landings of June 1944. This will enable students to question evidence, understand events and give judgements by supporting opinion with evidence.

Year 10, June

ICT - Multimedia Use (Animations in Flash)

Join us each Thursday morning 9:00 -10:00 from mid-February onwards.

Y11, February-July

Love Languages

Participate in workshops to develop pupils' speaking, reading and writing skills as well as paired sessions to prepare for GCSE oral examinations in Spanish.

Our award-winning Love Languages programme aims to inspire young people to study languages and enhance opportunities to progress to college, university and employment within the context of language learning. The programme offers bespoke sessions which are planned and delivered by our A-level Spanish students.

Years 9, 10, 11, September - July

Media and Film Studies

Explore the Media & Film industry through a series of practical sessions:

Take 1 – create a VINE exploring your favourite film genre.

Take 2 – Play the critic and write a review of your favourite film.

Take 3 – Plan, shoot and edit your own short film.

Years 10 and 11, January and April

Physics

Fancy a little Physics? Join our team to explore a practical session focused around the Physics for Engineering.

Years 9-11, January - June

Philosophy and Ethics

Think about.....thought, in a range of experiments in the context of Religious Ethics and create your own thought experiments. Be prepared to share your thoughts with others!

Years 9 - 11, June - July

PE and BTEC Sports Development

We can offer a range of bespoke sessions in a range of sports.

Years 9 - 11, January - July

Why Choose South Sefton College?

We are a post-16 college providing specialist education for 16-19 year-olds and provide an academically stimulating environment beyond school. As we are specialists in our field, we can offer over 25 A-level and BTEC courses

(as well as re-sit GCSE English and Maths), an exciting range of enrichment opportunities including residential visits abroad, and outstanding personal and academic support with specialised careers advice and guidance.

We put you at the heart of everything we do in providing unique learning opportunities which allow you to shine and shape your future. You will be treated as an individual, respected as a young adult and guided to reach your potential.

You can expect...

- To study with 16-19 year-olds from across Sefton, Liverpool and beyond.
- Outstanding personal and academic support.
- Extensive enrichment opportunities across a range of subjects as well as within our enrichment programme.
- To be part of a vibrant and caring community.

Your future starts here...

Our team are here to work with you and your pupils. You are most welcome to contact the people below with your queries and suggestions about how we could better serve the young people of our area. Together we can make it happen!
